

**NOTE:**

Dir **structure of the injected image** depends on the **CUSTOM\_INSTALL\_DIRECTORIES** env variable and the presence of the install.sh script, see subsection 2a), 2b) from [https://access.redhat.com/documentation/en/red-hat-xpaas/0/single/red-hat-xpaas-jdv-for-openshift-image/#modules\\_drivers\\_translators\\_and\\_generic\\_deployments](https://access.redhat.com/documentation/en/red-hat-xpaas/0/single/red-hat-xpaas-jdv-for-openshift-image/#modules_drivers_translators_and_generic_deployments)

Dir **deployments** in the injected image is not copied to the datavirt image during s2i, see <https://issues.jboss.org/browse/CLOUD-1145>
