

## 3.1. INSTALLING OPENSIFT DATA SCIENCE ON OPENSIFT DEDICATED

You can install Red Hat OpenShift Data Science as an Add-on to your Red Hat OpenShift Dedicated cluster using Red Hat OpenShift Cluster Manager.

### Prerequisites

- Purchase entitlements for OpenShift Data Science.
- User access to OpenShift Cluster Manager.
- Administrator access to the OpenShift Dedicated cluster.

### Procedure

1. Log in to OpenShift Cluster Manager (<https://cloud.redhat.com/openshift/>).
2. Click **Clusters**. The **Clusters** page opens.
3. Click the name of the cluster you want to install OpenShift Data Science on. The **Details** page for the cluster opens.
4. Click the **Add-ons** tab and locate the **Red Hat OpenShift Data Science** card.
5. Click **Install**.

The status on the card changes to **Installing**.

### Verification

- In the **Add-ons** tab for the cluster, confirm that the OpenShift Data Science card shows a status of **Installed** and that the **View in console** button is visible.
- Confirm that the **View in console** button is visible on the OpenShift Data
- Click **Projects** and confirm that the following project namespaces are visible and listed as **Active**:
  - **redhat-ods-applications**
  - **redhat-ods-monitoring**
  - **redhat-ods-operator**
