

Apr 8, 2022 | 📅 Quay.io UI revamp prioritization

Attendees: William Dettelback Daniel Messer Quiana Berry

Key Goals

- Prioritize different parts of the UI so engineers know what to focus on first
- Identify the parts of the UI we don't want to port
- Distinguish between private and public
- Update landing page

Red Hat Quay Priorities

- Quay Login - **P1**
- Create account page - **P1**
- Main Quay Namespace Listing / Overview Page - **P1**
 - User summary
 - ~~Top repos~~
 - ~~My namespaces~~
 - **Settings - P1**
 - **Team Membership**
 - **Recent Repos**
 - **Recent activity in repos i am member of**

 - **Filters**
 - **Manifest List expansion - P1**
 - **Bulk action**
 - **Create repository flow - P1**
 - **Pagination - P1**
- **Namespace detail page - P2**
 - Repositories
 - Teams
 - Different filters
 - Team Member Management
 - LDAP filtering

- Robots
 - Create
 - View
- Default Permissions
 - Add default permissions
- Application / Oauth tokens
 - Create workflow
 - Application Token Management
 - Settings
 - Secret Keys
 - Delete
 - Generate new token
- Logs
- Settings
 - Billing
 - Plan Management
- Create / Manage Teams page
- Create Repositories page
- Repository detail - **P1**
 - Landing / Detail Page
 - Description Edit Panel
 - Tags - **P1**
 - Add/remove Label
 - Manage Expiration
 - History
 - Logs - **P1**
 - Mirroring
 - Ad-Hoc Robot Creation
 - Builds
 - Create Build trigger Flow
 - Settings - **P1**
 - User / Robot Permissions
 - ~~Signing~~
 - Notifications
 - Repo visibility
- Tag detail page - **P1**
 - **General details - P1**
 - Tag creation date
 - Modify date
 - Digest
 - Platforms (multi-arch images)
 - size
 - Download shortcuts
 - Vulnerabilities numbers

- Identified
 - Vulnerabilities - **P1**
 - ~~○ Layers~~
 - Packages
 - **Signature details - P1**
 - **Labels**
 - **Base image lineage**
 - **Multi-arch details - P1**
 - Explore / Search
 - Search results
 - **Search Bar with filter language**
 - Superuser panel -> **System Settings**
 - Manage Users
 - ~~○ Organization list~~
 - ~~○ Service Keys~~
 - ~~○ ChangeLog~~
 - Usage Logs
 - **Dashboards stuff (potentially grafana)**
 - **Number of users**
 - **Gigabytes of content**
 - Account page
 - Settings
 - Robots
 - Repositories -> **Link to repo list view pre-filtered for owned repos**
 - Notification Panel

Quay.io - Public

- Service Overview Landing Page
- Explore
- Plans / Pricing
- About Page
 - **Included security guide**
- ~~● Tutorial~~
- ~~● Applications~~
- ~~● Security~~
- **Getting Started Guide**
 - Guided walkthrough
